Voyage of Discovery

EVEN ON THE CLEAREST NIGHT, THE HUMAN EYE CAN ONLY SEE ABOUT 3,000 STARS.

There is approximately 100,000,000,000 stars in our galaxy alone! It's estimated that the number of stars in the universe is greater than the number of grains of sand on all the beaches in the world! On a clear night, we can see the equivalent of a handful of sand.

Learn interesting facts about:

- BaTwa Bushmen and the stars
- Ba Twa Triangle of Truth
- Greek mythology
- Zodiac signs
- Recognise key stars (Southern Cross)
- Satellites

Take a voyage of discovery into our solar system as we explore the past, present and imagine what the future holds.
